Rochester, NY 14607

Dear Elisa,

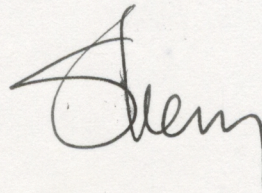

Enclosed is some information about the Center and its current programs, as well as a brief historical overview. I have included a report from our most recently completed program year, as well as one from 1976 as a point of comparison.

The tape enclosed was edited by Walter Wright in 1976 at Synapse. It is representative of the type of work being done in the studio at that time. Please feel free to pick out one of the shorter pieces to include in the screening Friday night if you'd like. Ralph also tried to copy a composite tape, indicative of the workshops and performances the Center was sponsoring, which was exhibited at "Information, Works and Activities" at the Everson Museum in Syracuse in 1976. That tape required a lot of cleaning, and given the time constraints, both yours and ours, we decided to postpone that transfer. The deterioration of this older work is definitely an issue...

If you have questions, please call.

Ralph and I will be arriving Saturday morning, and look forward to seeing you.

Sincerely,

A handwritten signature in dark ink, appearing to be 'Ralph', written in a cursive style.
